Revision of Electoral Rolls.

Under Section 23 of the Representation of the People Act, 1950, the electoral roll for each Constituency shall be prepared every year in the prescribed manner by reference to the qualifying date. Under Section 24 of the same Act the existing electoral rolls will remain in force until the 30th September 1952. The Election Commission, India have directed that—

(i) in respect of the five years from 1952 to 1956, each annual revision of the electoral rolls should intensively cover one-fifth of the entire State, leaving out the special areas mentioned in item (iii) below. In this area of intensive revision, the State Government will hold detailed house-to-house inquiries in the particular year. Naturally, areas which are known to have defective rolls should be chosen for such intensive revision;

(ii) in respect of the remaining four-fifth area, the revision in such year should proceed on the basis of the existing rolls with such minor amendments of the lists as may be worked out by reference to the National Register and the records of deaths and lists of amendments which come to the notice of the Electoral Registration Officers otherwise;

(iii) apart from the revision indicated in directions (i) and (ii) above, there should be an annual detailed revision of the rolls in certain special areas, *viz.*,

(*a*) urban areas,

(*b*) areas where there is a floating labour population or unrehabilitated displaced persons are congregated;

(*c*) areas to and from where fairly large migrations are known to have taken place; and

(*d*) that part of the rolls, which relate to the electors entitled to vote by postal ballot;

and that—

(iv) during the 1952 revision, the problem of the women electors who refused so far to reveal their proper names and whose names may have, in consequence, had to be struck off the electoral rolls, should be vigorously tackled and solved. Special efforts should be made to ascertain their names and put them back on the rolls, if the entries in respect of them were struck off from the existing rolls. Where the defective entries still remain and the electors are still described as the wives or daughters of so-and-so and the like, they should be invariably revised and proper names ascertained and substituted. Wherever possible, the good offices of local women's organisations should be availed of in getting the necessary particulars about the women electors concerned. Although some of these defective entries may not have been struck off during 1951, through mistake or oversight or otherwise, all care should be taken to ensure that no such defective entries are allowed to remain in our 1952 rolls.

The Government of Mysore have accordingly issued instructions for the preparation and revision of the electoral rolls for 1952. The intensive revision referred to by the Commission will be conducted in the Bangalore North and South Parliamentary Constituencies and all the Assembly Constituencies comprised therein and the ordinary revision directed by the Commission will take place in all other Constituencies in the State. The electoral rolls of Bangalore North and South Constituencies will be prepared afresh by regular house to house visit and by a detailed enquiry in order to ensure that all persons qualified to vote are brought on the electoral roll. The fact of preparation of the rolls will be announced by beat of *tom-tom* three days before the house to house enquiry is taken up.

In all the Assembly Constituencies other than those included in the Parliamentary Constituencies of Bangalore North and South the revision of the electoral roll will proceed on the basis of the existing rolls and will consist of a preparation of a list of amendments worked out by reference to the National Register nad the records of death and by such enquiries as may be necessary. No person will be brought on the list of amendments if his name already exists in the electoral roll.

Every citizen of India, who is not subject to any disqualification and who has attained the age of 21 on the 1st of March 1952, is qualified to be a voter.

The preparation of the roll of the Bangalore North and South Constituencies will be completed by 15th August 1952 and the list of amendments before the 10th July 1952.

Schemes for the Resettlement of the Ex-Servicemen of the Mysore State Forces.

For the resettlement of the Ex-Servicemen personnel released as a result of the integration of the State Forces with the Indian Army and the subsequent demobilisation of the several units, the following schemes have been approved by the Government of India and will taken up shortly for implementation.

I. Land Colonisation Scheme at Uddur and Aspathre Kavals of Hunsur Taluk in Mysore District.

Under the scheme about 350 families of ex-service personnel will be settled on land on a co-operative tenant farming basis. Each settler will be allotted lands up to an extent of one acre wet and six acres dry land on a permanent tenancy basis. The lands will be cleared and brought into a condition fit for intensive cultivation by the Government and a Co-operative Tenant Farming Society will be organised from amongst the settlers. It is also proposed to take up the work of the restoration of the tanks and interior roads. The Colony will be provided with the necessary facilities such as drinking water wells, school, medical aid and community buildings. Each settler will be provided with a small house with sufficient area for cattle sheds, etc. It is also proposed to provide bullocks for cultivation and two tractors with all essential equipment will be made available to the colony for follow up operations. Each settler will be required to contribute Rs. 250 towards capital of the Co-operative Society. The total expenditure for this scheme has been estimated at Rs. 12,60,000, the major portion of which may be treated as grant and the balance will be advanced as loan recoverable by the Government in instalments. The colony will be initially organised by the Government and will be directly controlled and managed by the State Government for about three years in the first instance.

II. Individual Settlers on Land.

For such of those as have been allotted or will be allotted land grants on individual basis, and who settle on land and personally engage themselves in agriculture, a grant of Rs. 500 each will be given for buying of essential implements, putting up farm houses, etc.

III. Technical Training Scheme.

Arrangements are being made for providing facilities to about 200 ex-servicemen for training in technical and vocational trades in the Government industrial schools and training centres as well as in private and Government industrial concerns. Those who are selected for technical training, will be given a stipend of Rs. 25 per mensem, up to a period of about one year. The ex-Servicemen of Mysore State Forces who are admitted as apprentices in private industrial concerns will also be entitled to these benefits.

IV. Auto-Rikshaw and Lorry Services and Auto-Workshop at Bangalore.

A combined Auto-Rikshaw and Lorry Services and Auto-Workshop with high pressure servicing facilities is also to be taken up with an estimated investment of Rs. 3,20,000 to settle about 90 ex-Servicemen. This is to be organised on a co-operative basis and the capital amount will be advanced as loan repayable in instalments. The co-operative society for this purpose will be initially organised and controlled for about three years. The ex-Servicemen who join this scheme are to contribute Rs. 500 to Rs. 1,000 towards the capital required. This may be paid in instalments. The members who are selected for auto-rikshaw scheme may be given the option of buying out the auto-rikshaws on a hire purchase system.

The expenditure on these schemes will be shared between the Government of India, the Government of Mysore, the Mysore Soldiers' Board and the ex-Servicemen themselves contributing a share.

The management of industrial concerns in the State are requested to extend their co-operation and assistance to the Government, in the task of resettling these men, particularly in the field of technical training, by taking on as many ex-servicemen as is possible as apprentices in the various trades.

The schemes are restricted to the ex-servicemen of the Mysore State Forces released after 1st April 1950, but ex-Indian Army (including Navy and Air Forces) personnel of Mysore State Domicile, released after September 1950 will also be considered. Further details and application forms for the various schemes may be had from the office of the Assistant Director of Relief and Rehabilitation of ex servicemen of Mysore State Forces, Herbal Post, Bangalore 6. *All intending applicants are requested to contact preferably in person the Assistant Director, immediately.*

The application forms to be sent, in duplicate, are priced at Re. 0-4-0 only per set of two copies. All intending applicants are hereby informed that if they desire an acknowledgment or reply, they should enclose along with their communications a self addressed envelope or postcard with sufficient postage. All applicants are to appear before the Selection Committee, at their own cost.

Health of Live-stock in Mysore State during May 1952.

In their order of severity, outbreaks of Rinderpest, Blackquarter, Hæmorrahagic-septicæmia, Anthrax, Foot and Mouth, Sheep-pox, Ranikhet and Contagious-goat pleuro-pneumonia were encountered in the State during May 1952. Altogether 230 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 233 villages during the previous month. The number of outbreaks was highest in Hassan, Tumkur and Kolar Districts, while Shimoga, Mandya and Chikmagalur Districts were least affected. These diseases accounted for 954 attacks, of which 705 succumbed. The departmental staff conducted 52,014 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease.

Eight outbreaks of Rinderpest were registered in Pavagada, Hiriyur, Challakere and Devanhalli Taluks accounting for 114 attacks among cattle, of which 62 succumbed. Prompt measures of control were undertaken by the department to check its spread and 2,980 cattle in the infected villages and 17,618 cattle in 58 neighbouring villages were protected against this disease. The disease appeared to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 135 villages accounting for 80 deaths as against 113 villages accounting for 5 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 12,603 animals as against 8,422 animals during the previous month.

The rest of the live-stock remained free from diseases during the month, and fodder and water were generally available throughout the State.
